PROFESSIONAL SUMMARY

Operations and supply chain professional with over two years of experience in multi-category retail operations and international trade consulting. At Decathlon India, delivered 100% of monthly targets for 8+ consecutive months with 95%+ stock availability. As a DHL GBSN Fellow, shaped cost and working-capital strategies that raised a Ugandan coffee exporter's gross margin from 21.2% to 40.5%. Skilled in S&OP, demand planning, inventory optimization, strategic sourcing, cost reduction and cross-functional stakeholder management, using SAP, Power BI, SQL and Python. MBA in Operations and Supply Chain Management.

PROFESSIONAL EXPERIENCE

DHL | SME Business Consultant (GBSN Fellow) | Washington, DC, USA (Remote) Jan 2026 – Present

- **Cost & Margin:** Rebuilt a Ugandan coffee cooperative's COGS model and recommended cost-allocation changes that, once implemented, raised gross margin from 21.2% to 40.5%.
- **Working Capital:** Modeled order-to-cash cycles and buyer renegotiations projected to cut DSO from 70 to 30 days, releasing ~USD 35K in liquidity; presented recommendations to cooperative leadership and DHL stakeholders in business review meetings.
- **Capacity Planning:** Built a roadmap to scale the cooperative to 20 export containers (384 MT) a year, recommending expansion from 3 to 6 washing stations to relieve bottlenecks across 2,000 smallholder farms.
- **Trade Compliance:** Proposed an EUDR/HREDD traceability framework with farm-level geolocation SOPs across 1,500 supply nodes and advised on Incoterms and export documentation to enable direct EU market access.
- **Quality & Capex:** Set post-harvest QA SOPs (12.5% moisture threshold) and built a volume-gated ~USD 85K capex case for in-house processing to capture a $0.30/lb origin premium.

Decathlon Sports India | Department Manager | Lucknow, India Dec 2023 – Oct 2025

- **Inventory Optimization & Replenishment:** Maintained 95%+ stock availability by managing store-level stock targets and replenishment orders in Decathlon's in-house WMS, clearing discounted stock before new intake and coordinating cross-functionally with logistics to cut inbound delays by 30%.
- **Target Delivery:** Achieved 100% of monthly targets for 8+ consecutive months in racquet and team sports by aligning merchandising (100% planogram compliance) and stock availability to cluster plans.
- **Order Accuracy:** Trained 30+ teammates on omnichannel ordering platforms, reducing order errors by 35% and increasing successful online transactions by 50%.
- **Analytics & Automation:** Automated weekly KPI reporting in Excel, Power BI, MySQL and Tableau, cutting analysis time by 40% and enabling 12% faster action on underperforming SKUs.
- **Customer & Digital:** Held 96% customer satisfaction while delivering 10% month-on-month digital sales growth over consecutive months.

IIDE – The Digital School | Virtual Intern | Remote Apr 2024 – May 2024

- **Campaign Analytics:** Improved simulated campaign engagement by 25% through SEO and social media KPI tracking and data-driven optimizations.
- **Market & Demand Research:** Identified digital growth levers with a projected 20% performance gain by analyzing competitors and search-demand trends in Google Trends and SEMrush.
- **Content Strategy:** Increased mock brand visibility by 30% through targeted content tailored to each channel.

Badminton World Federation | Event Coordinator – Transport & Accommodation Nov 2023 – Dec 2023

Syed Modi International Badminton Championship 2023 (BWF World Tour Super 300), Lucknow, India

- **Transport:** Managed 3PL transport partners to run airport–hotel–venue transfers for 480+ players, officials and VIPs, achieving 95% on-time performance through optimized shuttle schedules, contingency plans and coordination across 7 functional teams.
- **Accommodation:** Managed lodging for 450+ participants across 12 hotels, with 97% post-event satisfaction.
- **Vendor Negotiation:** Negotiated contracts with 12+ hotel and 3PL transport vendors, achieving a 15% cost reduction while holding service levels.

HCLTech | Technical Support Executive | Madurai, India Jun 2023 – Aug 2023

- Resolved multichannel client technical issues, escalated complex cases to engineering tiers and prepared part-requirement predictions and troubleshooting guides for field engineers.

EDUCATION

University of Economics – Varna, Bulgaria | MBA, International Business 2026 – 2027

Universal AI University, Mumbai | MBA, Operations & Supply Chain Management 2025 – 2027

Manipal University Jaipur | Bachelor of Computer Applications (BCA) 2023 – 2026

PROJECTS

- **S&OP Intelligence System (Python):** End-to-end S&OP pipeline across 500 SKUs, comparing 4 forecasting models and producing consensus plans, MRP supply plans and OTIF/SPC tracking in a live dashboard.
- **Strategic Sourcing Intelligence Engine (Python):** Spend cube, Kraljic segmentation and HHI supply-risk analysis across 280 suppliers and 28 categories, with a 5-rule contract-compliance engine.
- **Procurement Analytics (Python):** P2P compliance, supplier scorecards, TCO and XGBoost supplier-risk modeling across 11,963 POs and 240 suppliers, with a live dashboard.
- **Lean Six Sigma Process Analyzer (Python):** DMAIC analysis of 317K production records with SPC, FMEA and root-cause ranking, modeling a sigma-level improvement from 3.78 to 4.04 with a payback business case.
- **Pace Gen: Connecting Sports & Technology** – Research paper, published 2022 (Paper ID: CEFT20164).
